Songmaker Kit

ROL-001833

Play any style of song, anywhere with the Songmaker Kit, an integrated instrument formed of three powerful Blocks. Combine the expressive power of the Seaboard Block, Lightpad M and Loop Block to gain unlimited control of sound.

Kit includes: Seaboard Block, Lightpad M, Loop Block and protective Snapcase.

Software bundle includes: Equator, Traktion Waveform, Ableton Live Lite, BLOCKS Dashboard, and NOISE.

Lightpad Block M

ROL-001591

Lightpad M is the updated model of Lightpad Block, featuring a new tactile surface for additional expression control.

- Deeper, softer surface texture.
 - Surface dimpled with 225 “microkeywaves” for additional tactile feedback and precision playing.
 - Enhanced touch-responsiveness.
 - Brighter LED illumination.
 - Expanded software package including Equator Player, Traktion Waveform, Ableton Live Lite.
 - Works individually and connects to other Blocks.
-

Seaboard Block

ROL-001142

Seaboard Block is a portable, powerfully expressive controller.

- Multi-award-winning Seaboard interface.
- 5D Touch: Strike, Press, Glide, Slide, Lift.
- 24 keywaves, two-octave playing surface
- Over 200 included sounds.
- Wireless and portable.
- Software bundle: NOISE, Equator Player, BLOCKS Dashboard.
- Works individually and connects to other Blocks.

BLOCKS

2018 ROLI Product Catalogue

Live Block

ROL-001213

The Live Block makes it easier to add expression to your music when you perform.

The controls let you switch scales and octaves, play chords and arpeggios, and sustain notes in real time.

Loop Block

ROL-001218

The Loop Block makes it easier to layer loops and build a song.

The controls help you set your tempo, record loops, and quantize your loops so they snap in time with the beat.

Touch Block

ROL-001143

Touch Block makes it easier to adjust the touch-responsiveness of Lightpad Block and Seaboard Block.

The controls let you customize these expressive musical surfaces to your style of playing.

Snapcase Solo

ROL-001483

Accessory to protect and transport your BLOCKS studio.

Snapcase Duo

ROL-001484

Accessory to protect and transport your BLOCKS studio: two Lightpad Blocks, or a Lightpad Block with two Control Blocks.

Seaboard RISE

The Seaboard RISE, the future of the keyboard

The Seaboard RISE is an internationally acclaimed MIDI controller that lets you make music quickly and expressively on a soft, sensitive surface. An evolution of the piano keyboard, the RISE replaces black and white piano keys with pressure-responsive “keywaves” that let you play in between the notes of a standard keyboard.

You make music by striking the surface, pressing into it, gliding and sliding your fingers along it, and lifting off. Choose from a huge range of sounds — from acoustic guitar to electric piano to otherworldly synths. Then shape those sounds in real time through simple, intuitive gestures.

Seaboard RISE

Seaboard RISE 25

ROL-000632

The Seaboard RISE is the world's most expressive MIDI controller.

- 25 keywaves.
- 5D Touch: Strike, Press, Glide, Slide, Lift.
- Wireless with MIDI over Bluetooth.
- Three Touch Faders.
- Bundled with Equator, STROBE2, Dashboard and BITWIG 8-Track.

Seaboard RISE 49

ROL-000861

The Seaboard RISE is the world's most expressive MIDI controller.

- 49 keywaves.
- 5D Touch: Strike, Press, Glide, Slide, Lift.
- Wireless with MIDI over Bluetooth.
- Three Touch Faders.
- Bundled with Equator, STROBE2, Dashboard and BITWIG 8-Track.

RISE 25 Flip Case

Lilac: ROL-000871 Amber: ROL-000874

Sky: ROL-000872 Silver: ROL-000875

Lime: ROL-000873

This versatile accessory is a protective case that folds back to create a stand for mobile devices.

Available in 5 colours.

RISE AC Power Supply

US: ROL-001342 UK: ROL-001343 EU: ROL-001344

Seaboard RISE power supply accessory.

Seaboard GRAND

A premium, powerful performance instrument

The Seaboard GRAND is a premium performance instrument that opens new expressive possibilities for skilled keyboard players. An evolution of the piano keyboard, the Seaboard GRAND replaces the black and white keys of a piano keyboard with a soft, rippling surface of pressure-responsive keywaves.

You can modulate sound through the force of strike, as you would on a piano, but also through presses, bends, slides, and other natural movements. The Seaboard GRAND bridges the gap between acoustic and electronic instruments, providing the depth of expression of an acoustic instrument and the sonic range of a premium synthesizer.
